It’s flu season.

Get protected today at any network Pharmacy.

• Visit any network pharmacy for a flu shot
• Choose from more than 68,000 convenient locations, including a CVS Pharmacy® near you
• Call ahead for availability and to make an appointment (if needed)
• Bring your prescription card and valid photo ID

Together we can help prevent common illnesses before they start.

*Vaccines are available when immunizing pharmacist or MinuteClinic® practitioner is on duty, while supplies last. Most vaccines require a prescription (except for the flu shot).

Your privacy is important to us. CVS Caremark employees are trained regarding the appropriate way to handle your private health information.
